

# VILLAGE OF WIND POINT REQUEST FOR BEACH IMPROVEMENTS BIDS

The Village of Wind Point, Wisconsin is interested in receiving sealed bids for the Wind Point Lighthouse Beach Improvements Project. The work includes constructing a buried revetment, removal and disposal of non-native vegetation from the project area, beach nourishment, site grading, and the installation of cordwalk and limestone paths for public access. As an alternative to the purchase of new materials, the Bidder may remove remnants of the existing concrete jetty, salvaging the concrete for revetment construction. Construction of the revetment may also be aborted, alternatively substituting beach nourishment sand for the stone or salvaged concrete from the existing jetty. Beach improvements will assist in mitigation of bacterial and other contamination at Wind Point Lighthouse Beach.

Copies of the project plans and specifications are available by contacting the Project Engineer: Miller Engineers & Scientists. Inquiries will be accepted by email only, and should be directed to Sara Kellner at [skellner@startwithmiller.com](mailto:skellner@startwithmiller.com) with a CC to Michael Hawes at [m.hawes@windpoint.org](mailto:m.hawes@windpoint.org).

A certified check or satisfactory bid bond payable to the Village of Wind Point in the amount of not less than five percent (5%) of the bid is required. A successful Bidder will also be required to provide the Village with a Performance Bond and a Payment Bond for one hundred percent (100%) of the contract price.

**A mandatory pre-bid meeting will be held at 1:00 p.m. on Tuesday, July 25, 2017** at the project site. Bids will only be accepted by prime contract Bidders that have attended the pre-bid meeting.

Bids will be received by the Village of Wind Point Village Office until **2:00 p.m. on Tuesday, August 1, 2017**.
